In June, we were honored to have world renowned nutritional counselor, author and TV personality, Lee DuBelle, at Bio Medical Center. Lee volunteered her time and resources to show our patients the kind of love, friendship and HOPE for which Hoxsey has always been known. There was such a positive response from our patients, that Lee has agreed to visit us again the last two weeks of August. Lee's 52 years' experience in health and diet, and her enthusiasm WILL motivate you! Lee's 35 year relationship with Bio Medical brings it all together for our patients.

The only charge to you will be \$50.00 per day for the nutrients you use. You will receive a free cookbook, a text book for the health training, and other literature written by Lee. All of Lee's therapy, counseling, diet education and training will be FREE. Classes each day will have new information, so you won't want to miss a one.
